

Is disease a result of depleted life energy?

Over the course of their lives people can experience internal injuries, creating, for example, "a tight knot of rage in the stomach", or "the bile rises in one's throat". Such emotional conflicts are repressed into the subconscious and can, according to alternative medicine, disturb psychosomatic energetics' subtle energy giving rise to the so-called energy blocks according to the underlying theory.

Disease may be seen as a deficiency in the flow of life energy which can be blocked by psychological stress, unsolved emotional conflicts, environmental load, or functional organ problems.

Dr Rainer Viehweger has been using PSE for 15 years, and he is still loving to see the changes clients can make when they free themselves from carrying unnecessary emotional burden.

He became a Certified Energy Therapist in 2004.

At the session we will take your case history, perform the 3 steps of the REBA® test including testing your supplements or medication, and then discuss the results. You will be handed out the test report and the recommendations for the homeopathic remedies.

A session lasts about 60 minutes.

You may need 3 to 5 sessions every 2-4 months over a period of up to 12-15 months.

Psychosomatic Energetics (PSE)

Every one of us is a wonderful, but also vulnerable soul. You know how it feels when problems, stresses and fears bind big amounts of your energy. The same is true for unconscious and suppressed emotional conflicts.

We all have suffered emotional trauma, and often we are not aware of it. We hide traumata as emotional conflicts in the subconscious. In a stressful situation they may become activated and start to steal life energy making us sick on the long run via affecting the immune system, the nervous system and the hormone system. PSE detects those conflicts. The Chavita and Envita compound homeopathic remedies help melt away the conflicts via resonance enabling the body to regain its life energy.

Especially in cases of chronic diseases and diseases of unclear origin which do not efficiently respond to the usual therapies, medicine often seems to have reached its limits. At this point, the development of PSE started, and has by now being used for more than 20 years, combining modern science with psychology, homeopathy, and traditional far eastern medicine.

Disclaimer: The method of Psychosomatic Energetics and the REBA® test device do not diagnose, prevent or treat disease. If you have a medical condition or concern, please consult an appropriate health care professional, since the PSE is an alternative concept, which is not scientifically recognised in medicine.

An emotional conflict comprises the same energetic layers as the human body. The conflict is fed with the body's life energy through a connection similar to an umbilical cord.

The 3 steps of the energy test:

1. Determination of the body's energy field levels with the help of the REBA® test device
2. Testing of the energy blockages
3. Testing of the appropriate complex homeopathic compound remedies

The tested remedies are then taken twice a day. The positive therapy effect should show as a noticeable and measurable increase of energy.
